

# Nostalgia

## **I: Academic Fair:**

The Academic Fair was held by the University of Kalyani. It is matter of pride on our behalf that a stall was allotted on the basis of our request. The stall was decorated by the staff of our college. Some magazines, the analyses of the results of the Final examination through Diagram and Chart, books published from our college were exhibited in the fair. During the fair, 2/3 teachers and teaching assistant were present in the stall. Many students and teachers of different colleges visited our stall. The Hon'ble Vice Chancellor visited our stall and conversed with our teachers. He highly appreciated about our endeavor. We were mesmerized by the presence of our Hon'ble Vice Chancellor. We really become nostalgic and it brought a sense of encouragement and motivation amongst us.

## **II: Achievements in Sports and Games**

There is a sizable numbers of students who actively participate in the sports and games. They show their skills in different fields of sports and games. In case of the University-level sports and games, they bagged a number of medals that augmented the reputation of our college. We are really proud of our students. The frequent announcements of our college by the University/other organizations regarding winning a medal touched us very much. Their achievements are the achievements of our college. We become nostalgic while medals after medals are showered on the performance of the students. Such events really touched our heart and we may say that they are our treasures.

## **III: Faculty Exchange Program**

Faulty exchange program is an innovative idea that instilled a sense of enthusiasm in the minds of the faculty of our college and the college wherefrom the faculties are coming to our college to teach the students. Students of both the colleges get a new test. Teachers also get motivated in delivering their lectures at their level-best manner. Teachers of both the colleges also enjoy such type of arrangement. Recently, our college made a covenant with the Chapra Bangalji College regarding faculty exchange program. It became nostalgia while our teachers went to that college for teaching students. Our teachers were really happy and contented by the gestures, hospitality and demeanor of the students and the staff of Chapra Bangalji college.

## **IV: Kanyashree Prakalpa**

Girl Students enrolled in Kanyashree Prakalpa have exhibited their performance in the competition organized by the Government of West Bengal. Our college has bagged some awards and these achievements added a new feather to our college. The more we receive such types of awards, the more we become nostalgic.

# **Alumni Association**

The college has an alumni association but it is not registered. An initiative has been taken to get the association registered. It is now in the pipeline. In the meantime, a numbers of meetings of Alumni Association were held and the responses of the members of the said association are praiseworthy. In the meetings, they exchanged and shared their views with the existing students and the staff of our college. The alumni were really happy to have such a platform which was beyond their imagination.

# **Skill Development Programs**

Program-1: Mushroom Cultivation

Program-2: Bee Keeping Arrangement

Program-3: Hands on Training

Program: 4: Yoga

Program: 5: Plantation of Vtiver Grass
